

Seminar Peminatan Interactive Multimedia

Genap 2012/2013

D4740 - Rhio Sutoyo

Agenda

- Multimedia Programming Foundation
- Game Design and Programming
- Multimedia 3D Modeling and Animation
- Current Popular IT V
- Products of Interactive Multimedia
- Potential Research in Interactive Multimedia
- Career Opportunities

MULTIMEDIA PROGRAMMING FOUNDATION

Learning Outcomes

1. Compare formats in multimedia elements
2. Use formats in multimedia elements
3. Select multimedia elements builder

Multimedia and GUI

Color In Image

Color Processing

- Color and Tristimulus Theory
- Color Model, Gamut, and Color Space
- Digital Image and Image Compression

Image File Format and Manipulation

RAW

JPG

TIFF

PNG

RAW

JPG

TIFF

PNG

Graphics 2D

Introduction to Graphics 2D

- Graphics
- Stroke
- Composite
- Antialiasing

Animation in Graphics 2D

- Frame and Cast Based Animation
- Frame Rate
- Transparency
- Animation Process

Audio File Format

Audio Processing

- Audio Architecture
- Audio Digitization
- Audio Compression

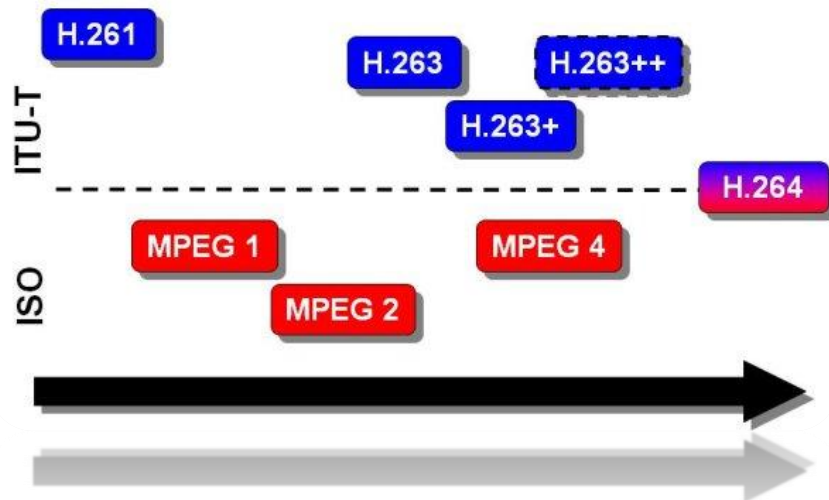

Fundamental Concepts in Video

Fundamental Concepts in Video

- Analog Video vs Digital Video
- Digital Video Compression
- Video Transmission

Video Compression Standards

Analog Signal

Digital Signal

Current Popular Multimedia

Introduction to 3D Objects

GAME DESIGN AND PROGRAMMING

Learning Outcomes

1. Explain general game theories
2. Explain game development process
3. Create game design documentation
4. Create an appropriate game design
5. Create a simple game based on the design

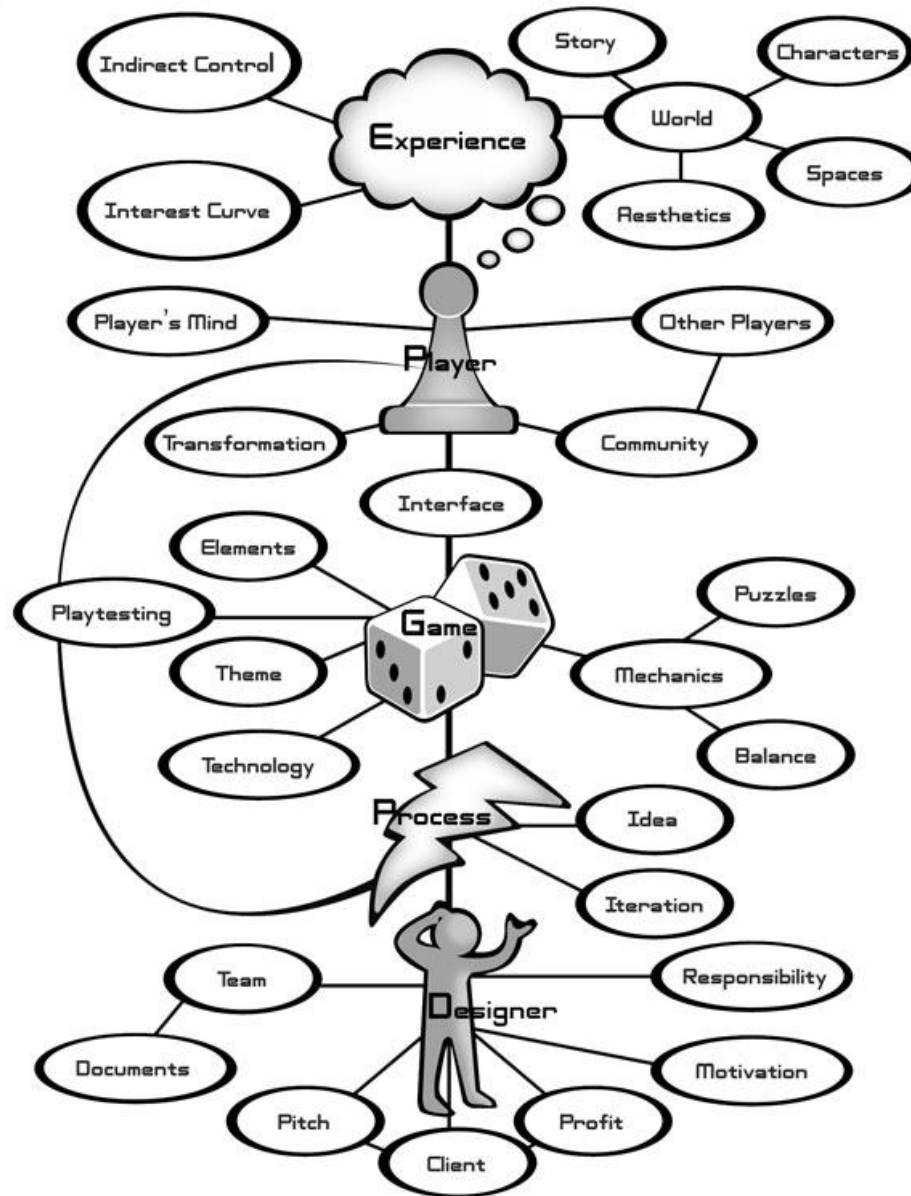

Game Genres

Game Genres

The Evolution of Game Videos Genres

Design Component and Process

**KEEP
CALM
AND
JUMP
N
SHOOT**

Game Concept

How to create a game concept?

- Game idea
- Choosing the genre
- Target audience
- Types of game mechanics

A Field Guide to Angry Birds

Games that lodge in the brain often have comical stars

The chubby white bird drops an egg bomb when players tap the screen after launching the creature from the slingshot.

Black birds act as bombs, which explode once they've landed on a target, obliterating pigs and buildings around them.

The first avian missile players encounter when they start the game, **the red bird** follows a simple trajectory when launched.

The blue bird splits into three smaller versions in mid-air when the screen is tapped.

Tapping the screen after launching **the yellow bird** gives the critter a speed boost that makes it more deadly.

The green bird turns into a boomerang that doubles back to strike targets in otherwise protected locations.

The big red bird is a flying wrecking ball that causes more damage than his smaller red cousin.

Storytelling and Narrative

Nine centuries ago, the Mana Tree burned to ashes. The power of Mana lived on inside Mana stones, enchanted instruments, and artifacts. Sages fought with each other for control of these last remnants of Mana.

Then, after hundreds of years of war, as the power of Mana began to wane, those who sought it grew scarce, and the world returned to peace.

After that, mankind grew afraid to desire. Their hearts filled with empty emotions, and grew estranged from my hands. They turned their eyes away from my infinite power, and were troubled by their petty disputes.

Remember me!
Need me!
I can provide you with everything!
I am love.
Find me, and walk beside me.

User Interface

Consoles

Mobile Phones

Paper Mario: The Thousand-Year Door (2004)

Paper Mario: Sticker Star (2012)

Super Paper Mario (2007)

Game Balancing

GAME BALANCE

What Game Balance?

What Game Balance?

Plants vs. Zombies

SUBURBAN ALMANAC - ZOMBIES

GARGANTUAR

Gargantuar is a gigantic zombie.

Toughness: extremely high

When Gargantuar walks, the earth trembles. When he moans, other zombies fall silent. He is the zombie other zombies dream they could be. But he still can't find a girlfriend.

MULTIMEDIA 3D MODELING AND ANIMATION

Learning Outcomes

1. Construct a simple 3D model
2. Apply motions to a 3d model
3. Modify settings for material and lighting
4. Apply additional effects to enrich the scene

Glow Lens Effect

Rendering

Motion

The object's position at 1 and 2 are the keyframed models at different times. The computer generates the in-between frames.

CURRENT POPULAR IT V

Learning Outcomes

1. Apply the suitable design principles when developing multimedia application
2. Explain different instructional design strategies and related theories of learning
3. Analyze effective design principles on different multimedia environments
4. Design and develop an effective multimedia application

Basic Concepts of Information and Instructional Design

Instructional Design Process

CAREER OPPORTUNITIES

Career Opportunities

Careers	
Animator	Art Director
Game Designer	Graphic Designer
Interactive Writer	Interface Designer
Sound Producer	Video Producer
Web Content Producer	Web Developer
Webmaster	Presentation Artist

Career Opportunities

Markets	
Publishing	Media Companies
Advertising	Software Startups
Software	Advertising
Education	

Career Opportunities

Multimedia Uses	
Online games	CD-ROM games
Corporate website design	Personal websites
Reference Material	ATM's/Kiosks
Product introduction	Technical Training
Arcade games	Marketing
Edutainment	Trade Shows

Career Opportunities

Companies
